132 Lake Street
Lake Mills, WI**

MENU

scones, croissants, bagels, muffins,
yogurt parfait, quiche, juice & coffee

\$9.50/PERSON

IS IT "BEHAVIORAL" OR "MEDICAL"?

Is your dog chewing up your furniture when you leave? Is your cat going to the bathroom outside of its litterbox? Very few situations with pets are ever *just* behavioral or *just* medical. As with humans, outward behavior is the result of a complex combination of physiology and mental activity.

Deanna Clark, DVM, CCRT, and Mittsy Voiles, BA, CPDT-KA, of the Lake Mills Veterinary Clinic, will explain the interplay between medical and behavioral diagnoses. You bring the questions...they will bring the answers!

Visit Water House Bistro all during the month of March to view pictures of HSJC adoptable animals and obtain both general and event information!

Water House Bistro will donate one percent of store and Farmer's Market sales from the entire month of March to the HSJC — what a delicious way to help animals!
